

The Geography of Educational Backlog in Mexico

27,233,798 people aged 15 and over — 26.6% of Mexico's adult population — have not completed basic education. Every dot below is 2,000 of them, placed at random inside their own state. Colour shows how deep the deprivation runs.

RATE VS. VOLUME — every state, ranked by rate

Educational backlog (rezago educativo): population aged 15 and over that has not completed lower-secondary education. Estimates as of 31 December 2025.
